

GUIDA ALL'INSTALLAZIONE DI DNS2GO

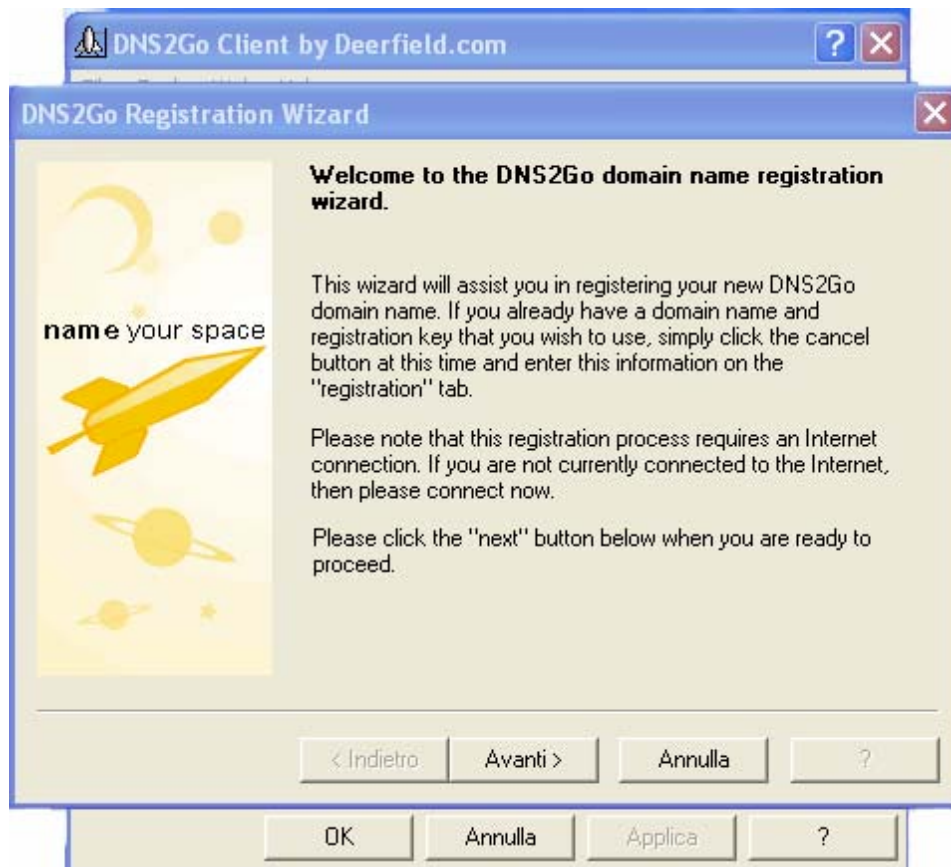

Eccoci qui con una nuova guida.....

Questa volta impariamo ad installare Dns2go, il primo passo per crearsi un ftp privato!

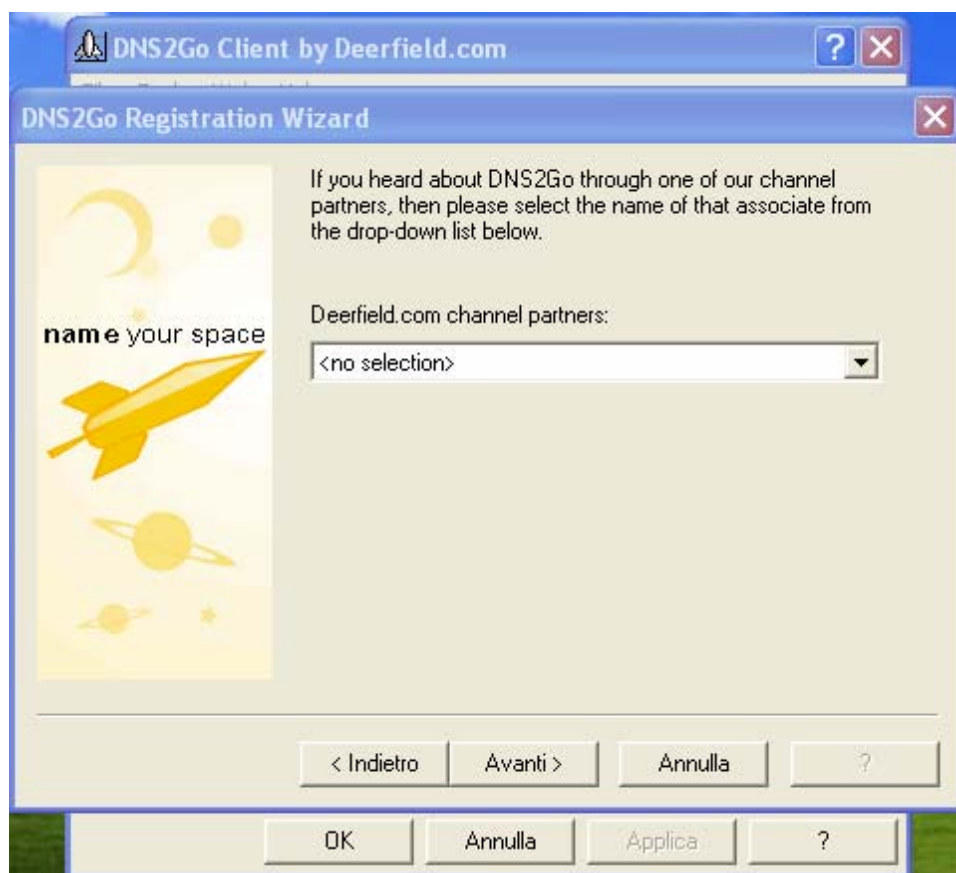

Dopo aver installato il programma in questione vi troverete di fronte ad una finestra così:

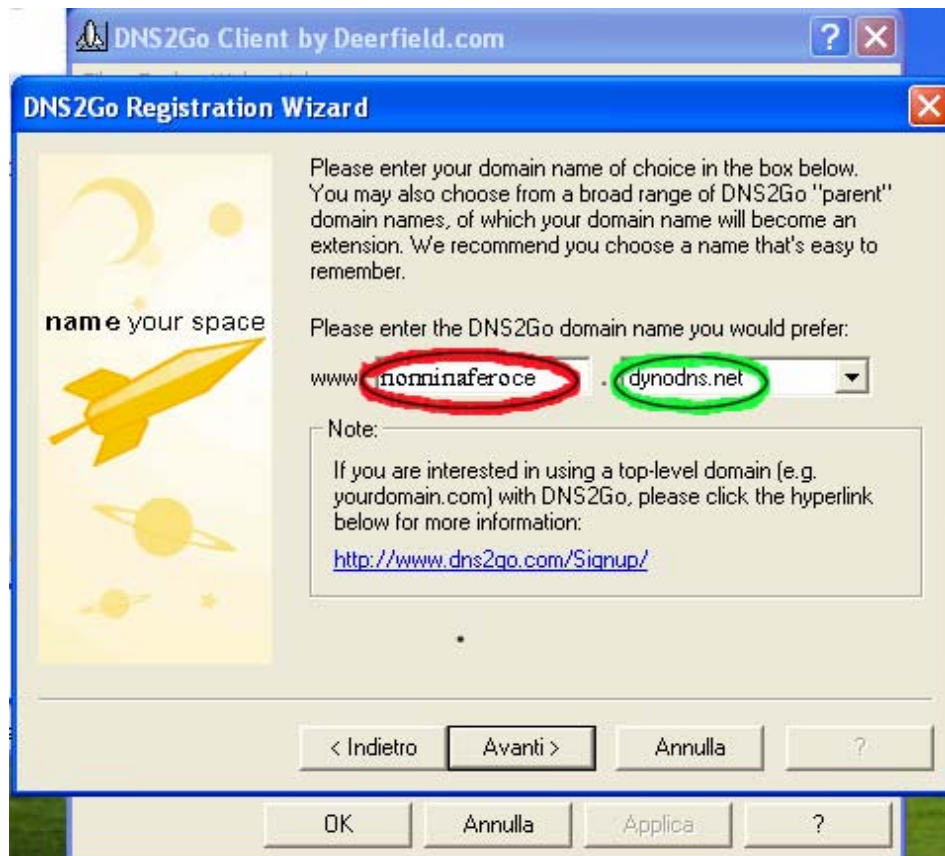

Clikkiamo: "Register Domain" e ci comparirà questa nuova finestra

Clikkiamo “Avanti”.....e ci troviamo qui:

Se volete qualcosa fate pure,ma nn è necessario!
Bene andiamo avanti!

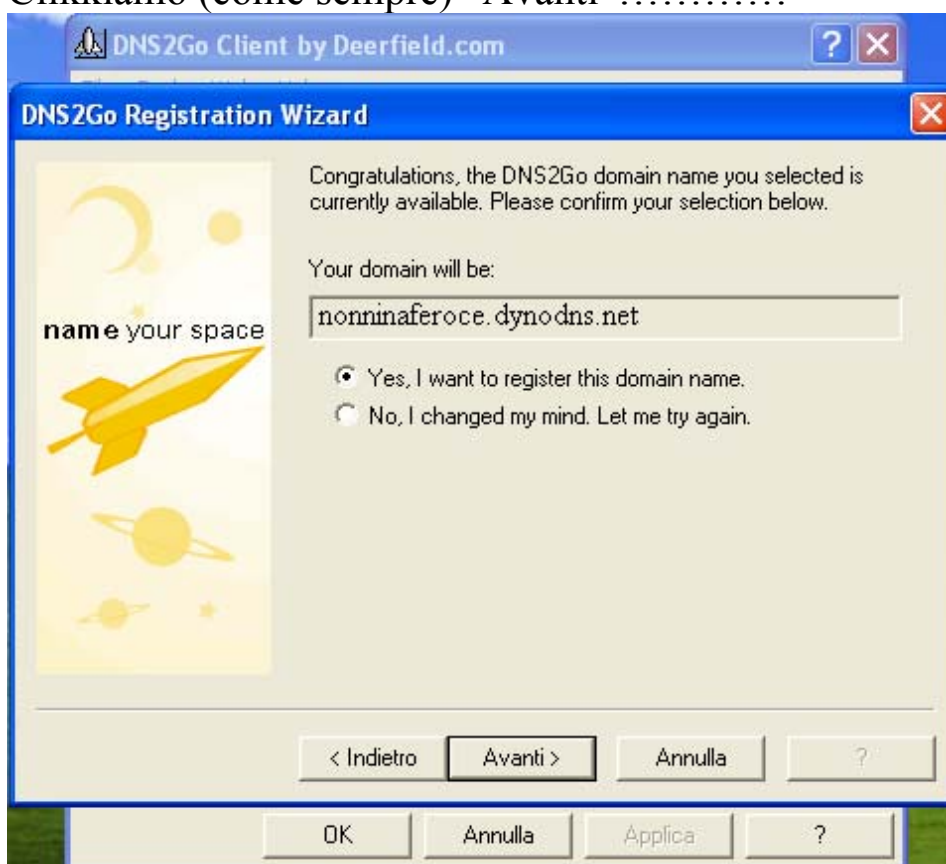

Ooooooooooh finalmente una finestra interessante!!!!

Nella zona segnata in **rosso** scriveremo il “nome” del nostro ftp,nella zona **verde** invece sceglieremo l’estensione.....sono tutte uguali,scegliete semplicemente quella che preferite!!!

Questo sarà il nome del nostro ftp.....nel nostro caso sarà:

nonninaferoce.dynodns.net

Clikkiamo (come sempre) “Avanti”

vuoi registrare questo dominio??Sì?? Ok.....”Avanti”!!!!!!!

The screenshot shows the 'DNS2Go Registration Wizard' window. The title bar reads 'DNS2Go Client by Deerfield.com'. The window has a blue header with a close button. On the left, there is a graphic with the text 'name your space' and an illustration of a rocket and planets. The main area contains the following text: 'The following DNS2Go sign-up information is required. Please be sure to enter your e-mail address correctly, as your registration key will be e-mailed to you.' Below this are several input fields: 'First Name:' with 'Dvd', 'Last Name:' with 'dvd', 'Email Address:' with 'nonninaferoce@tin.it', 'Connection Type:' with a dropdown menu showing 'T1-T3', 'Country:' with a dropdown menu showing 'Uzbekistan', 'State/Region:' with 'nonnina feroce forever', and 'Zip/Postal Code:' with '123456'. At the bottom, there are four buttons: '< Indietro', 'Avanti >', 'Annulla', and a question mark button. Below the main window, there is a secondary bar with four buttons: 'OK', 'Annulla', 'Applica', and a question mark button.

Compile queste formalità.....fornite un indirizzo e-mail valido se no non vi mandano la registration key!! E andiamo sempre “Avanti”

The screenshot shows the 'DNS2Go Registration Wizard' window, Step 2. The title bar and header are the same as in the first screenshot. The left graphic is also the same. The main area contains the text: 'The following DNS2Go sign-up information is optional.' Below this are several input fields: 'Choose your primary use for DNS2Go:' with a dropdown menu showing 'Home / Personal', 'Technical ability:' with a dropdown menu showing 'Advanced', 'Are you currently a Deerfield.com customer?' with a dropdown menu showing 'No', and 'How did you hear about DNS2Go?' with a text box containing 'internet'. At the bottom, there are four buttons: '< Indietro', 'Avanti >', 'Annulla', and a question mark button. Below the main window, there is a secondary bar with four buttons: 'OK', 'Annulla', 'Applica', and a question mark button.

Siamo alla fine.....compilate questa parte.....e, andando avanti ci troveremo qui:

Ecco completata la registrazione!

Il nostro ftp avrà come indirizzo: **nonninaferoce.dynodns.net**

Se avete problemi contattateci!!!
